

Con la presencia de numerosos participantes en línea, el día 12/06/26 comenzó el Curso Instalaciones domiciliarias: agua fría/caliente, cloacal y pluvial, a cargo de la profesora Arq. Adriana Robredo.

The screenshot shows a Zoom meeting window. At the top, there is a header bar with the CAVERA logo and the text "CAVERA". Below this, there is a grid of video feeds. The main feed on the left shows a woman speaking. To her right, there are smaller feeds for other participants, including "Nicolas Niles" and "CAVERA". The main content area of the Zoom window displays a slide titled "AGUA FRIA Y CALIENTE, DESAGÜES CLOACALES Y DESAGÜES PLUVIALES". The slide features three images: a close-up of a hand using pliers to work on a metal pipe fitting, a cross-section of a trench showing various colored pipes (red, blue, green) being installed, and a view of a roof with a drainage system.

The screenshot shows a Zoom meeting window. At the top, there is a header bar with the CAVERA logo and the text "CAVERA". Below this, there is a grid of video feeds. The main feed on the left shows a woman speaking. To her right, there are smaller feeds for other participants, including "RODOLFO PARRA", "Laura Baccigalupi", "Paredes, Carlos", "Marta", and "Marta". The main content area of the Zoom window displays a slide titled "CAPTACIÓN DE AGUA. AGUAS SUBTERRANEAS (perforación en el terreno)". The slide features two images: a 3D cross-section of the Earth's crust showing different geological layers (mountains, sediment, rock, and water), and a diagram of a well. The diagram labels the following components: "Bomba" (pump) at the top, "Caño de Aislación" (isolation pipe) in the middle, "Napa freática" (water table) as a horizontal line, "Estrato Impermeable" (impermeable layer) as a horizontal line, "Cañería de Maniobra" (maneuver pipe) in the middle, "Segunda Napa" (second water table) as a horizontal line, and "Caño Filtro" (filter pipe) at the bottom.
